

Feedback Comment Bank

Write the **code** on the paper, or paste the full comment into your LMS. Every comment ends with the fix.

Design (D)

Code	Comment
D1	Name a real audience for your project — 'anyone' isn't specific enough to design for.

Code (C)

Code	Comment
C1	Explain your procedure's abstraction: what does it hide/reuse in the larger program?

Iteration (I)

Code	Comment
I1	Show a concrete change that came from testing or peer feedback.

Positive (G)

Code	Comment
G1	Great scope and a clear procedure — this is a strong capstone. Nice iteration story.
